Sub: Modification in Model Tender Form in respect of Scheme for construction of godowns through private entrepreneurs – PEG – 2008 & PEG – 2009 Scheme.

During HLC Meeting held on 27.02.2013, it has been observed that in case Bids both for construction of Godowns with Railway Siding and without Railway Siding are received for the same centre, there is no guideline in the MTF to make a comparison between these Bids. Therefore, the Competent Authority has directed to modify clause 23 of the MTF as under (changes incorporated by way of modification are mentioned in bold): -

“Clause 23: “Wherever 25,000 MT and above capacity is required, it should preferably have the provision for private Railway Siding. In all cases, except where Railway Siding will come, the Godowns should preferably be within a radius of 8 KMs from the full rake Railway Goods Shed. **Preference shall be given to the offer with Railway Siding based on Cost Benefit Analysis of lowest (L-1) Bids for Rail Siding with Non-Railway Siding Godowns for the same Centre and this shall be based on expected annual turnover and Handling & Transportation rates at/around the Centre during the guaranteed period.**”

The above modification should be incorporated in the MTF in circulation and the same will be followed for floating of future NITs with immediate effect.

This issues with the approval of competent authority.

Yours faithfully,

(H. S. Dhaliwal)  
Dy. Gen. Manager (Stg.)
